## Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

## Listing of Claims:

## 1-62. (Canceled)

- 63. (Currently amended) A method of operating a hydrogen-fueled device, the method comprising conveying hydrogen released from a composition to the device, the composition comprising a carrier liquid, a dispersant, and a chemical hydride, wherein the dispersant comprises a triglyceride.
- 64. (Previously presented) The method of claim 63, further comprising contacting the composition with water.
- 65. (Previously presented) The method of claim 63, further comprising removing water from the hydrogen released from the composition.
- 66. (Previously presented) The method of claim 63, further comprising controlling a reaction temperature from the release of the hydrogen.
- 67. (Previously presented) The method of claim 63, further comprising conveying water from the device to a water reservoir.
- 68. (Previously presented) The method of claim 63, further comprising separating the hydrogen from a hydroxide product.

69. (Previously presented) The method of claim 63, further comprising pumping the composition to a reactor.

- 70. (Previously presented) The method of claim 63, wherein the carrier liquid comprises mineral oil.
  - 71. (Canceled)
- 72. (Currently amended) The method of claim 63, wherein the dispersant triglyceride comprises triolein.
- 73. (Previously presented) The method of claim 63, wherein the chemical hydride comprises magnesium hydride.
- 74. (Previously presented) The method of claim 63, wherein the chemical hydride comprises lithium hydride.
- 75. (Currently amended) The method of claim 63, wherein the composition the carrier liquid comprises mineral oil, triolein, and the chemical hydride comprises magnesium hydride, and the triglyceride comprises triolein.
- 76. (Currently amended) The method of claim 63, wherein the composition comprises about 40 50 to about 75% by weight of the chemical hydride.
  - 77. (Previously presented) The method of claim 63, wherein the device is a fuel cell.
